Sona Prescreen Survey
Questionnaire Submission Form

Instructions:

Please use this form to submit questionnaires for inclusion in the Sona Prescreen Survey. Use a separate form for each set of questions you wish to include.

It is our goal to allow researchers to include as many items as they would like into the prescreen survey, but we may need to limit the number of items if too many items are submitted such that the total amount of time to complete the survey is longer than 30 minutes. We thus ask you to be judicious in your selection of items and to indicate the priority of each item or set of items. As a rule of thumb, each lab should submit no more than 30-40 items for consideration to the survey. Note, we are limiting the number to lab and not to researcher or student; so all PIs, post-docs, graduate students, undergraduate students in any one lab should not submit more than 40 items.

Please be aware that all submitted items must have received ethical approval by the Office of Research Services at the University of Toronto prior to the date of application. We can make no exceptions here. The protocol reference number must be provided on your mass testing submission.

Please submit a separate copy of the form for each set of questions you wish to include. Forms should be submitted by the lab PI to psychology-undergraduate@utsc.utoronto.ca by September 14, 2018. We will be unable to consider late applications.
